

BRUERN ABBEY SCHOOL

Special Educational Needs Policy

This policy applies to all pupils in the school

Valerie Flanagan, Head of Special Needs, Lead SENCo Bruern Prep School

Rachel Roberts, SENCo (Juniors) Bruern Prep School

Steve Hart, SENCo Bruern Senior School

Every teacher is a teacher of every child or young person, including those with SEN.

School Setting

Bruern Abbey School is an all-boys independent school for pupils of the age of 8 to 16 years.

School beliefs

Bruern Abbey School believes that all pupils are entitled to high quality, well-planned and well-organised teaching, which will enable them to participate in a broad and balanced curriculum and to be part of the social life of the school.

Special Educational Needs Policy

Compliance

This policy complies with the statutory requirement laid out in the SEND Code of Practice 0 – 25 (2015) and has been written with reference to the following guidance and documents:

- Equality Act 2010: advice for schools DfE Feb 2013
- SEND Code of Practice 0 – 25 (2015)
- Schools SEN Information Report Regulations (2014)
- Statutory Guidance on Supporting pupils at school with medical conditions April 2014
- The National Curriculum in England Key Stage 1 and 2 framework document Sept 2013
- Safeguarding Policy
- Accessibility Plan
- Teachers Standards 2012

The Equality Act (2010) sets out the legal obligations that schools and early years providers have towards disabled children. In line with this act, we are committed to not directly, or indirectly discriminate against, harass or victimise disabled children. We will make reasonable adjustments to ensure that disabled children are not at a substantial disadvantage compared with peers.

We are aware of the non-statutory documents Mental health and behaviour in schools (March 2015) and Counselling in schools: a blueprint for the future (March 2015) and are considering guidance found in these in order to support children who suffer from, or are at risk of developing mental health problems.

This policy was created in collaboration with the SENCo, Headmaster and members of the SLT. The policy takes into consideration of views from the staff, parents and pupils with SEND and all other professional bodies that Bruern works with.

Persons responsible for the implementation of the learning support and SEND policy statement:

- The Headmaster and the SENCo are the 'responsible persons' for ensuring that all those who teach SEN pupils have been informed of their needs.
- The SENCo and Headmaster cooperate in producing the School's learning support and SEND policy statement, which is approved by the governing body. Sufficient staffing, training and funding must be made available to meet the aims of the Policy Statement and resources must be used effectively.
- The SENCo coordinates the day-to-day provision for pupils with learning support needs and SEND.
- Teachers are responsible and accountable for the progress and development of pupils in their class, including where pupils access support from learning assistants or specialist staff (SEND Code 2015 6.36).

Special Educational Provision

The Equality Act 2010 retains the previous definition of disability:

'A physical or mental impairment which has substantial and long term adverse impact on a person's ability to carry out normal everyday activities'.

This has some overlap with the definition of 'special educational needs' in the Children and Families Act 2014 (which includes pupils with significantly greater difficulty in learning than the majority of children of his age, or a disability which means that a pupil cannot make full use of the general educational facilities provided for pupils of their age in mainstream state schools) but not all pupils are disabled by their SEN and vice versa.

At Bruern Abbey School, we endeavour to secure special educational provision for pupils for whom this is required, that is '**additional to and different from**' that provided within the differentiated curriculum to better respond to the four areas of need identified in the new Code of Practice:

- Communication and interaction
- Cognition and learning
- Social, mental and emotional health
- Sensory/physical

(New Code of Practice September 2014) (See Appendices for definitions)

At Bruern Abbey School, we believe that a pupil has special educational needs if:

- He has a learning difficulty or disability which calls for special educational provision to be made
- A learning difficulty or disability is a significantly greater difficulty in learning than the majority of others of the same age

Bruern Abbey School recognises that high achieving children are recognised as having a 'special educational need' and provision will be made to meet these needs. This may be through differentiation, extra classes or further opportunities laid on via our Gifted and Talented opportunities.

Aims and Objectives

At Bruern Abbey School, we aim:

- To identify and provide for pupils who have SEN and additional needs
- To work within the guidance provided in the SEND Code of Practice, 2014
- To operate a "whole pupil, whole school" approach to the management and provision of support for special educational needs
- To provide at least one Special Educational Needs Co-ordinator (SENCo) who will work with the SEN Inclusion Policy
- To provide support and advice for all staff working with special educational needs pupils
- To create an environment that meets the special educational needs of each child to engage in activities alongside pupils who do not have SEN
- To request, monitor and respond to parents/carers and pupil's views in order to evidence high levels of confidence and partnership
- To make clear the expectations of all partners in the process
- To ensure a high level of staff expertise to meet pupil need, through well targeted continuing professional development
- To ensure support for pupils with medical conditions full inclusion in all school activities by ensuring consultation with health and social care professionals

- To identify the roles and responsibilities of all staff in providing for children's special educational needs through reasonable adjustments to enable all children to have full access to all elements of the school curriculum
- To work in cooperation and productive partnerships with Local Education Authorities when necessary and other outside agencies, to ensure there is a multi-professional approach to meeting the needs of all vulnerable learners

Whole School Graduated Approach to SEN Support

Bruern Abbey School takes a whole school approach to the provision for pupils with SEN through assessing, planning, delivering, reviewing and recording of information, to ensure that all children achieve their potential.

1. Identification of Needs

Nearly every boy that is enrolled at Bruern Abbey School has a SpLD. Each pupil will have an up to date Educational Psychology report that gives an outline of a pupil's needs. Thereafter, should a class teacher, parent or another professional body connected to that pupil notice any other areas of needs this is then raised with one of the SENCo's.

'Slow progress and low attainment do not necessarily mean the child has SEN. The class teacher working with the SENCo should assess whether the child has SEN'.

SEN COD 0-25(2014).

Before identifying a child as needing SEN support the class teacher with the SENCo support will establish a clear analysis of the pupils needs.

2. Analysis of Needs

Ongoing processes of **formative, summative and diagnostic assessment** is an integral part of the teaching and learning process at Bruern Abbey School providing information useful to the pupil, the teacher and the parents. It demonstrates what has been learned, identifies successes and gaps in learning and should identify what the next learning stage should be. It also provides valuable information about how the curriculum could be suitably adapted and which methodologies should be adopted to meet individual needs. Where current rates of progress for individual pupils are inadequate (see appendices for definition), arrangements for appropriate screening and support will be made through the school's graduated approach to SEN.

Raising a Concern and taking action - Procedure

- **Assess:** The class or subject teacher, working with the SENCo, will carry out a clear analysis of the pupil's needs
- **Plan:** In consultation with the parent and pupil, agree the adjustments, interventions and support to be put in place as well as the expected impact on progress, development or behaviour, along with a review date.
- **Do:** The class or subject teacher remains responsible for working with the pupil. The SENCo will support the main class/subject teacher in the further assessment of the pupil's particular strengths and weaknesses, in problem solving and advising on the implementation of support
- **Review:** The effectiveness of the support and interventions and their impact on the pupil's progress is usually reviewed on a regular basis; the impact and quality of the support and

interventions is evaluated through formative and accumulative assessment by the teacher and SENCo, along with the views of the pupil and their parents; the support is revised in light of the pupil's progress and development in consultation with the pupil and parents.

The above process will assist the SENCo in determining what needs should be registered for that child on the SEN Register

Identifying behaviour as a need is not an acceptable way of describing SEN. Any concerns relating to a pupil's behaviour will be described as an underlying response to a need which we will be able to recognise and identify clearly. (See Bruern's Behaviour policies).

Storage and Managing Information

The school will continue to use the system of iSams and the Bruern Hub to store information and Personal Educational Plans to record the steps taken to meet the needs of individual pupils. The SENCo are responsible for ensuring that records are kept and available when needed. They are kept on an on-line portal, iSams and Bruern Hub. These are available to share with parents regularly. Personal Education Plans (PEPs) are completed for pupils whose difficulties affect their day to day performance in the classroom. The aim of these is to target specific areas of learning or behaviour.

Targets should be in addition to the normal learning targets and should be:

- CSMART – challenging; specific; measurable; achievable; realistic; time-bound.
- Only three or four in number
- Relate to the area of need for the child: communication, English, Maths, behaviour and social skills.

Differentiation:

The school's core curriculum is inclusive and differentiated and we recognise that differentiation (a key concept of the SEND Code 2015) is paramount to meeting a pupil's needs in the classroom and the Learning Support Team advise on teaching strategies that can be utilised for boys to this effect. This differentiation allows most pupils to achieve their potential without additional support.

All staff members have access to individual information via the school system. Electronic copies of completed PEPs are collated by the SENCo.

SEN Register and Educational Reports

The SEN registers are managed by the SENCo and is available for reference on iSams and the Bruern Hub. Reports written by other professionals, are kept on iSams and any paper copies are stored in a secure filing system in the SEND Department.

The SENCo will ensure that all staff are familiar with the SEN Register and the identified strategies for learning in relation to the pupils they teach.

The Role of The SENCo at Bruern Abbey School

Bruern Abbey currently has a number of trained SENCo on the staff. The basic roles are as follows:

Valerie Flanagan – oversees the responsibilities outlined below for pupils in years 7 and 8 (known at Bruern Prep as the Lower and Upper Sixth) and assesses the needs of prospective pupils

Rachel Roberts – oversees the responsibilities outlined below for pupils in years 4-6 (known at Bruern Prep as the Juniors school)

Steve Hart - oversees the responsibilities outlined below for pupils at Bruern Senior School and assesses the needs of prospective pupils

John Floyd – Headmaster – helps advise on the allocation of resources and support for current pupils and advises on whether Bruern can meet the needs of prospective pupils as part of the admissions process.

Responsibilities include:

- Compiling and managing the SEN Register for their relevant year groups
- Overseeing the day-to-day operation of the school's SEN policy.
- Co-ordinating provision for pupils with SEN, (including those with an EHC plans, statemented or pupils with SENAs, as detailed in the section below)
- Overseeing the records of all pupils with SEN
- Developing effective ways of overcoming barriers to learning
- Ensuring that PEPs are produced where necessary, completed and reviewed each term
- Reading / summarising / disseminating information regarding educational reports
- Liaising with teaching staff
- Liaising with secondary educational establishments to discuss transition
- Advising / liaising /managing the deployment of additional teaching staff
- Screening visiting pupils, reviewing the identification procedure, monitoring progress and record keeping
- Organising / attending review meetings
- Liaising with external agencies
- Managing and developing the effective use of the school's resources
- Identifying, order and utilise the resources available from other agencies
- Contributing to the development of curriculum policies to ensure that the provision for pupils with SEN is considered
- Supporting and advising teachers in planning appropriate programmes of work
- Analysing data, monitoring progress and providing additional support to SEN pupils working in class
- Continuing C.P.D.
- Liaising, advising and supporting parents of pupils with SEN.
- In consultation with the S.M.T. review the quality of teaching including contributing to, and supporting teachers' understanding of strategies to identify and support pupils with SEN, through appropriate training.

Training and Resources

Resources:

The SEND Department is well-equipped with many resources that aid in the teaching and learning of our individual pupils. Extending on from this, all classes across the curriculum also have an array of resources that are available to students. Every pupil has access to their own laptop with supportive software and reader pens are available should a boy need or require one. There is a high level of staff to pupil ratio throughout the school.

Training:

Bruern Abbey recognises the importance of training and Continual Professional Development and promotes it regularly. In order to maintain and develop the quality of teaching and provision to respond to the strengths and needs of all pupils, all staff are encouraged to undertake training and development. All teachers and support staff undertake induction on taking up a post and this includes a meeting with the SENCo to explain the systems and structures in place around the school's provision and practice and to discuss the needs of individual pupils.

The school's SENCo regularly attends and hosts Bellevue SENCo and network SENCo meetings in order to keep up to date with local and national updates in SEND.

Support Services

Support Services are welcomed to support a child with SEN, if the child:

- continues to make little or no progress in specific areas over a long period
- continues working at national curriculum levels substantially below that expected of children of a similar age
- continues to have difficulty in developing literacy and mathematical skills
- has emotional or behavioural difficulties which regularly and substantially interfere with the child's own learning or that of the class group.
- has sensory or physical needs and requires additional specialist equipment or regular advice or visits by a specialist service
- has ongoing communication or interaction difficulties that impede the development of social relationships and cause substantial barriers to learning
- despite having received intervention, the child continues to fall behind the level of the peer group

Valuing Parents

Bruern Abbey School welcomes parental involvement and seeks to gain as much information as possible about the child from the parents/carers; all relevant staff read any paperwork submitted. All discussions are dealt with confidentially and in a sensitive manner. In partnership with parents, pupils with special educational needs will be encouraged to contribute to the assessment of their needs, the review and the transition process.

We seek to ensure that parents are able to play their part in supporting their child's education and that they are involved in all aspects of learning support and SEND, from initial concern and identification through to having a better understanding of their son's learning and can be supported to achieve their potential.

The school adopts an open door approach and parents are encouraged to communicate with their son's tutor, teachers, Head of Special Needs or Headmaster to discuss any concerns or difficulties, interests or aspirations specific to, or seriously affecting, their child's education.

At all stages of the SEN process, the school keeps parents fully informed and involved. We encourage parents to make an active contribution to their pupil's education and hold regular meetings to share progress in addition to regular parent/pupil achievement meetings. Half-termly and/or termly reports are written in all subject areas. There are also face-to face parent meetings twice a year. Parents are aware that they can make an appointment to meet members of staff at any time, or communicate via post, e-mail or telephone.

A record is kept of any communication with parents, and all notes and action plans arising from these meetings are kept in a secure place in order to maintain confidentiality.

Arrangements for learning support and SEN pupils changing schools or leaving school in consultation with parents, the SENCo or Headmaster will notify the receiving school about a pupil's learning support or SEND records, including the provision that has been made and targets met, following the guidance of: Prep School guidelines for the transition of pupils from Preparatory to Senior Schools.

Considering the Pupil's Views and Opinions

At Bruern Abbey School, the pupil's views will be sought whenever possible, by asking, listening and observing the pupil's reaction to activities and resources. A judgement is made and discussed with colleagues and parents. Though we accept that a pupil's perceptions and experiences can be invaluable, as a school, we recognise that this may not always be easy and may need to consult parents and other colleagues for further information.

Provision for pupils with EHC Plans or statements

From 1 September 2014, there have been no new statements of SEN. Education, Health and Care Plans (EHC plans) have been introduced instead.

In accordance with the school's admissions policy, Bruern Abbey School admits children who will benefit from the education offered and who will contribute to and benefit from the ethos and activities of our school community. In respect of an application for a place for a pupil with SEND, including a pupil with an EHC plan or statement, the school will have regard to these criteria and also to whether, given its limited facilities for pupils with SEND, the school can make reasonable adjustments to cater adequately for such a pupil. Similarly, the school will not refuse admission for a child with SEND on the grounds that he does not have an EHC plan, but will make a judgement with regard to the criteria above and whether appropriate reasonable adjustments can be made. This may include supporting parents in the application for a statutory assessment for an EHC plan.

The school acknowledges its responsibility, within the bounds of reasonable adjustment, to identify, assess and make appropriate provision for children with SEND, whether or not they have an EHC plan. Accordingly, where assessment determines that a pupil's individual needs may be best served by a statutory assessment for an EHC plan, the SENCo will inform parents and will assist them in the necessary preparations and application for such an assessment. The school will meet its duty to respond to any request from the local authority for information relating to a statutory assessment, within 6 weeks of receipt.

Where a pupil at the school has an EHC plan or statement, the school will ensure:

- Co-operation with the relevant local authority in undertaking the annual review of the plan, including the presentation of relevant information on the evaluation of learning and progress. Any advice and information gathered will be sent to all those invited to an annual review meeting at least two weeks prior to the meeting. The school will prepare and send a report of the meeting to everyone invited within two weeks of the meeting and will enable the local authority to undertake a review of a pupil's EHC plan at least 7 months before transfer to another phase of education.
- Co-ordination by the SENCo of the specific provision made to support individual children who have EHC plans, together with the monitoring and review of its efficacy.
- Facilitation by the SENCo of additional staff training as required to meet the terms of the plan
- Provision of information by the SENCos to ensure that all those teaching or working with a child named in an EHC plan, are aware of the pupil's needs and the arrangements in place to meet them.
- Co-operation, as appropriate, with health and social care providers to meet the terms of the plan.
- Preparation, where a pupil wholly or partly funded by a local authority is registered at the school, of an annual account of income received and expenditure incurred by the school in respect of that pupil, for the local authority and, on request, the Secretary of State.

Through its evaluation procedures, the school will seek to identify improvements in outcomes. This will include, as appropriate, consultation with pupils and their parents, taking into account:

- Prevention.
- Early identification/recognition.
- How pupils and their families will be able to access services.
- How transitions between life stages and settings will be managed, including from Early Years to primary education.
- How provision and support services will enable pupils to prepare for their future adult life.

Confidentiality

The school will not disclose any EHC plan without the consent of the pupil's parents with the exception of disclosure:

- To the SEN and Disability Tribunal when parents appeal and to the Secretary of State if a complaint is made under the Education Act 1996.
- On the order of any court for the purpose of any criminal proceedings.
- For the purposes of investigations of maladministration under the Local Government Act 1974.
- To enable any authority to perform duties arising from the Disabled Persons (Services, Consultation and Representation) Act 1986 or from the Children Act relating to safeguarding and promoting the welfare of children.
- To ISI or Ofsted inspection teams as part of their inspections of schools and local authorities.
- To any person in connection with the pupil's application for disabled students' allowance in advance of taking up a place in higher education. (NB This bullet point is for secondary education only)
- To the Headteacher (or equivalent position) of the institution at which the pupil is intending to start secondary/higher education.

Pupils with English as an Additional Language

Children who are learning English as an additional language have skills and knowledge about language similar to monolingual English speaking children. Their ability to participate in the full curriculum may be in advance of their communication skills in English. The school will work to achieve the following for EAL pupils

- To give all pupils the opportunity to overcome any barriers to learning and assessment.
- to welcome and value the cultural, linguist and educational experiences that pupils with EAL bring to the school
- Enable them to develop an understanding of and respect for British culture.
- To implement school-wide strategies to ensure that EAL pupils are supported in taking part in all activities.
- To help EAL pupils to become confident and fluent in speaking and listening, reading and writing in English in order to be able to fulfil their academic potential.
- To encourage and enable parental support in improving children's attainment.
- All rooms to be socially and intellectually inclusive, valuing cultural differences and fostering a range of individual identities as appropriate.
- Identify the child's strengths and acknowledge the time it takes to become fluent in an additional language.
- to ensure that, in conducting broader assessments of children's ability and progress, any limited proficiency in English will not be a barrier to understanding their wider abilities

Teaching and Learning

For the majority of their time at school, our EAL pupils will be integrated in all the same classes as our native speaking English pupils. Everyone in the school is therefore responsible for helping our EAL children become more fluent in English. During lessons teachers will:

- Show differentiated work in their planning.
- Have high expectations, expect pupils to contribute and give more than single word answers.
- Recognise that EAL children are as able as any other children and so they should be set appropriate and challenging learning objectives, with their progress being monitored carefully.
- Recognise that EAL pupils need more time to process answers.
- Allow children to use their mother tongue to explore concepts.
- Give newly arrived children time to absorb English (there is a recognised 'silent period' when children understand more English than they use. This passes if their self-confidence is maintained).
- Use groups to ensure that EAL children hear good models of English;
- Use collaborative group activities.
- Provide a range of reading books that highlight the different ways in which English is used, and in which both language and content are suitably matched to the age and maturity of the child.
- Provide phonic software and audio books as appropriate.
- Ensure that there are many opportunities for talking to both adults and peers.

Other Considerations

When organising trips and carrying out disciplinary procedures the specific needs of pupils are always considered so that individual pupils can participate fully in the event.

Risk Assessments are carried out for all trips and outings off site. Should there be outside agencies that visit Bruern, risk assessments are also carried out to ensure safety. Risk assessments are kept in the school office for staff and administration to access.

Where parents alert the school to SEN prior to entry, this is accounted for during familiarisation procedures.

Disability Discrimination Act

Though we acknowledge that not all children with a disability have a special educational need, we have regard for the Disability Discrimination Act (1995) and will make **reasonable adjustments** to include all children and their families. The School has a 3-year disability access plan, as required.

RSHE

The RSHE guidance makes specific reference to the teaching of RSHE to children with SEN as they may be particularly vulnerable to exploitation, abuse or discrimination. The school has considered how to deliver RSHE for children with SEN.

Pupils with Medical Conditions

Buern Abbey School recognises that pupils at school with medical conditions are properly supported so that they have full access to education, including school trips and physical education. Pupils are supported by an onsite matron and trained staff. Please refer to the First Aid Policy.

Admissions

Our inclusive approach is reflected in our Equal Opportunities and Admissions Policy, available on the school website.

Monitoring progress and Evaluating Success

The SLT at Bruern Abbey School will establish the extent to which standards, measured by Common Entrance exam scores/grades, NGRT reading, YARC, HAST spelling, and PUMA maths, have improved across groups of pupils with identified SEN by:

- comparing baseline data with the data collected at the assessment point
- reviewing pupils' progress in relation to the targets set
- taking account of other factors that may have affected progress
- analysing the effectiveness of educational professionals and parents working in partnership
- noticing a reduction in the total number of pupils requiring SEN provision
- noting how well pupils with SEN have access to the whole curriculum of the school
- observing an increase in independence of individual pupils with SEN
- ensuring provision for each pupil is planned for, reviewed and evaluated regularly
- ensuring the most effective deployment of resources is designed to ensure the needs of all pupils are met

Accessibility including the Physical Environment

At Bruern Abbey School, high quality teaching using differentiation for individual pupils, is the first step in responding to pupils who have or may have SEN. Details of differentiation are provided in schemes of work, termly and weekly planning. Planning is monitored regularly by Emily Allmond (Head of Academics) and the SENCo. In the SEND Department SfL planning is monitored by Valerie Flanagan, Rachel Roberts and Steve Hart in their roles as SENCo. Feedback is provided regularly to ensure high quality teaching and learning.

Individual teachers respond to children's needs by referring to Personal Education Plans and the SEN Manager to record individual needs. Teachers use these to inform teaching by:

- providing appropriate support for children who need help with communication, language and literacy e.g. through grouping and use of appropriate learning materials
- planning suitable experiences to develop children's understanding through the use of all available senses
- planning for children's full participation in learning, and in physical and practical activities
- helping children to manage and own their behaviour and to take part in learning effectively and safely
- helping individuals to manage their emotions, particularly trauma or stress and to take an active part in their learning
 - using different learning materials or specialist equipment
 - deployment of additional teaching staff to work with individuals or small groups of children when appropriate
 - requesting support from the SENCo both in and outside the classroom
 - using specific intervention materials (see appendix)

Physical Environment

Bruern Abbey School has a commitment to providing specialist equipment when needed. If it is clear that a particular resource poses a threat to a pupil, these are removed. We are devoted to adapting the environment to the needs of boys as and when required.

Procedures for Resolving Complaints about SEN Provision

This follows the school complaints procedure, as published on the school's website.

Bullying

At Bruern Abbey School, steps are taken to ensure and mitigate the risk of bullying of vulnerable learners. Please see the school's anti-bullying policy.

Criteria for Exiting the SEN Register/Record

Should Specific Learning Difficulties or other needs no longer need identification in a pupil's profile then this will be documented on the SEND Register. Staff, parents and other related professionals are notified.

Appendix 1

A) Broad areas of need as set out in the SEND Code of Practice 2014:

Communication and interaction

Pupils and young people with speech, language and communication needs (SLCN) have difficulty in communicating with others. This may be because they have difficulty saying what they want to, understanding what is being said to them or they do not understand or use social rules of communication. The profile for every pupil with SLCN is different and their needs may change over time. They may have difficulty with one, some or all of the different aspects of speech, language or social communication at different times of their lives.

Pupils and young people with ASD, including Autism, are likely to have particular difficulties with social interaction. They may also experience difficulties with language, communication and imagination, which can impact on how they relate to others.

Cognition and learning

Support for learning difficulties may be required when pupils and young people learn at a slower pace than their peers, even with appropriate differentiation. Learning difficulties cover a wide range of needs, including moderate learning difficulties (MLD), severe learning difficulties (SLD), where pupils are likely to need support in all areas of the curriculum and associated difficulties with mobility and communication, to profound and multiple learning difficulties (PMLD), where pupils are likely to have severe and complex learning difficulties as well as a physical disability or sensory impairment.

Specific learning difficulties (SpLD), affect one or more specific aspects of learning. This encompasses a range of conditions such as dyslexia, dyscalculia and dyspraxia.

Social, emotional and mental health difficulties

Pupils and young people may experience a wide range of social and emotional difficulties which manifest themselves in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. These behaviours may reflect underlying mental health difficulties such as anxiety or depression, self-harming, substance misuse, eating disorders or physical symptoms that are medically unexplained. Other pupils and young people may have disorders such as attention deficit disorder, attention deficit hyperactive disorder or attachment disorder.

Sensory and/or physical needs

Some pupils and young people require special educational provision because they have a disability which prevents or hinders them from making use of the educational facilities generally provided.

These difficulties can be age related and may fluctuate over time. Many pupils and young people with vision impairment (VI), hearing impairment (HI) or a multi-sensory impairment (MSI) will require specialist support and/or equipment to access their learning, or habilitation support. Pupils and young people with an MSI have a combination of vision and hearing difficulties.

Some pupils and young people with a physical disability (PD) require additional ongoing support and equipment to access all the opportunities available to their peers.

B) Other considerations

Other considerations need to be taken into account as these may also impact on the progress and attainment of our pupils;

- Disability (the Code of Practice outlines the “reasonable adjustment “duty for all settings and schools provided under current Disability Equality legislation –these alone do not constitute SEN)
- Attendance and Punctuality
- Health and Welfare
- EAL
- Being in receipt of Pupil Premium Grant
- Being a Looked After Pupil
- Being a pupil of Serviceman/woman

C) Adequate progress

The key test of the need for action is that current rates of progress are inadequate.

Adequate progress can be identified as that which:

- Prevents the attainment gap between the pupil and his peers from widening
- Closes the attainment gap between the pupil and his peers
- Shows an increased rate of progress than previously
- Ensures access to the full curriculum
- Demonstrates an improvement in self-help, social or personal skills
- Demonstrates improvements in the pupil’s behaviour

Appendix 2

Glossary of Terms

Academy: A state-funded school in England that is directly funded by the Department for Education, through the Education Funding Agency. Academies are self-governing and independent of local authority control.

Access to work: An Access to Work grant from the Department for Work and Pensions helps to pay for practical support for young people and adults who have a disability, health or mental health condition so they can start work, stay in work or start their own business. It can pay for things like special equipment, fares to work if public transport is not practical, a support worker or coach in the workplace or a communicator at a job interview.

Annual review: the review of an EHC plan which the local authority must make as a minimum every 12 months.

Armed Forces Covenant: The armed forces covenant sets out the relationship between the nation, the government and the armed forces. It recognises that the whole nation has a moral obligation to members of the armed forces and their families and it establishes how they should expect to be treated. The Covenant states that the children of service personnel should have the same standard of, and access to, education (including early years services) as any other UK citizen in the area in which they live.

Care plan: A record of the health and/or social care services that are being provided to a child or young person to help them manage a disability or health condition. The Plan will be agreed with the child's parent or the young person and may be contained within a patient's medical record or maintained as a separate document. Care Plans are also maintained by local authorities for looked after children – in this instance the Care Plan will contain a Personal Education Plan in addition to the health and social care elements.

Child and Adolescent Mental Health Services (CAMHS): These services assess and treat children and young people with emotional, behavioral or mental health difficulties. They range from basic pastoral care, such as identifying mental health problems, to specialist 'Tier 4' CAMHS, which provide in-patient care for those who are severely mentally ill.

Children and young people's secure estate: This comprises three types of establishment – secure children's homes, secure training centres and young offender institutions.

Comprehensive Health Assessment Tool (CHAT): An assessment tool for young people in the youth justice system. It ensures that young people in the secure estate and in the community receive a comprehensive assessment of their physical and mental health, substance misuse and neuro-disability needs on entry to the system.

Compulsory school age: A child is of compulsory school age from the beginning of the term following their 5th birthday until the last Friday of June in the year in which they become 16, provided that their 16th birthday falls before the start of the next school year.

Disabled Students Allowance (DSA): An allowance for undergraduate or post graduate students who have a disability or long-term health condition, mental health condition or specific learning difficulty such as dyslexia or dyspraxia which affects their ability to study. It can be used to pay for things such as special equipment, a note-taker or transport costs.

Disagreement Resolution: This is a statutory service commissioned by local authorities to provide a quick and non-adversarial way of resolving disagreements between parents or young people and bodies responsible for providing education, whether the child or young person has an EHC plan or not, or health and social care in relation to EHC assessments and plans. Disagreement resolution services can also be used in cases of disagreement between local authorities and health commissioning bodies during EHC needs assessments, the drawing up of EHC plans or the reviewing of those plans.

Early Help Assessment: A social care assessment of a child and his or her family, designed to identify

needs at an early stage and enable suitable interventions to be put in place to support the family.

Early Support Programme: The Early Support Programme co-ordinates health, education and social care support for the parents and carers of disabled children and young people from birth to adulthood. A key worker is assigned to families that join the Programme.

Early Years Foundation Stage (EYFS): The foundation stage begins when children reach the age of three. Many children attend an early education setting soon after their third birthday. The foundation stage continues until the end of the reception year and is consistent with the National Curriculum. It prepares children for learning in Year 1, when programmes of study for Key Stage 1 are taught.

Early years provider: A provider of early education places for children under five years of age. This can include state-funded and private nurseries as well as child minders.

Education Funding Agency (EFA): An arm of the Department for Education that manages the funding for learners between the ages of 3 and 19 years and for those with SEN or disabilities between the ages of 3 and 25. The EFA allocates funding to 152 local authorities for maintained schools and voluntary aided schools. It is also responsible for funding and monitoring academies, University Technical Colleges, studio schools and free schools, as well as building maintenance programmes for schools and sixth-form colleges.

Education, Health and Care plan (EHC plan): An EHC plan details the education, health and social care support that is to be provided to a child or young person who has SEN or a disability. It is drawn up by the local authority after an EHC needs assessment of the child or young person has determined that an EHC plan is necessary, and after consultation with relevant partner agencies.

Elected members: The elected members of a county council or unitary local authority (as opposed to the salaried officials of the council or local authority). Some elected members have a lead responsibility for specific areas of policy, for example the Lead Member for Children's Services.

First-tier tribunal (Special Educational Needs and Disability): An independent body which has jurisdiction under section 333 of the Education Act 1996 for determining appeals by parents against local authority decisions on EHC needs assessments and EHC plans. The Tribunal's decision is binding on both parties to the appeal. The Tribunal also hears claims of disability discrimination under the Equality Act 2010.

Free school: A free school is a type of academy, which is free to attend, but is not controlled by the local authority. Free schools receive state funding via the Education Funding Agency. Parents, teachers, businesses or charities can submit an application to the Department for Education to set up a free school.

Further education (FE) college: A college offering continuing education to young people over the compulsory school age of 16. The FE sector in England includes general further education colleges, sixth form colleges, specialist colleges and adult education institutes.

Graduated approach: A model of action and intervention in early education settings, schools and colleges to help children and young people who have special educational needs. The approach recognises that there is a continuum of special educational needs and that, where necessary, increasing specialist expertise should be brought to bear on the difficulties that a child or young person may be experiencing.

Health and Wellbeing Board: A Health and Wellbeing Board acts as a forum where local commissioners across the NHS, social care and public health work together to improve the health and wellbeing of their local population and reduce health inequalities. The boards are intended to increase democratic input into strategic decisions about health and wellbeing services, strengthen working relationships between health and social care and encourage integrated commissioning of health and social care services.

Healthwatch England: Healthwatch England is an independent consumer champion, gathering and representing the views of the public about health and social care services in England. It operates both at a national and local level and ensures the views of the public and people who use services are taken into account. Healthwatch England works as part of the Care Quality Commission.

Healthy Child Programme: The Healthy Child Programme covers pregnancy and the first five years of a child's life, focusing on a universal preventative service that provides families with a programme of screening, immunisation, health and development reviews, supplemented by advice around health, wellbeing and parenting.

Independent Reviewing Officer (IRO): The appointment of an IRO is a statutory requirement for local authorities under the Adoption and Children Act 2002. IROs make an important contribution to the goal of significantly improving outcomes for looked after children. Their primary focus is to quality assure the care planning process for each child, and to ensure that his or her current wishes and feelings are given full consideration.

Independent school: A school that is not maintained by a local authority and is registered under section 464 of the Education Act 1996. Section 347 of the Act sets out the conditions under which an independent school may be approved by the Secretary of State as being suitable for the admission of children with EHC plans.

Independent supporter: A person recruited locally by a voluntary or community sector organisation to help families going through an EHC needs assessment and the process of developing an EHC plan. This person is independent of the local authority and will receive training, including legal training, to enable him or her to provide this support.

Joint Strategic Needs Assessment (JSNA): Joint strategic needs assessments (JSNAs) analyse the health needs of populations to inform and guide commissioning of health, wellbeing and social care services within local authority areas. The JSNA's central role is to act as the overarching primary evidence base for health and wellbeing boards to decide on key local health priorities.

Local Offer: Local authorities in England are required to set out in their Local Offer information about provision they expect to be available across education, health and social care for children and young people in their area who have SEN or are disabled, including those who do not have Education, Health and Care (EHC) plans. Local authorities must consult locally on what provision the Local Offer should contain.

Maintained school: For the purposes of this Code, schools in England that are maintained by a local authority – any community, foundation or voluntary school, community special or foundation special school.

Mediation: This is a statutory service commissioned by local authorities which is designed to help settle disagreements between parents or young people and local authorities over EHC needs assessments and plans and which parents and young people can use before deciding whether to appeal to the First-Tier Tribunal about decisions on assessment or the special educational element of a plan. Mediation can cover any one or all three elements of an EHC plan and must be offered to the parent or young person when the final plan is issued, but they are not able to appeal to the Tribunal about the health and social care aspects of the plan.

National curriculum: This sets out a clear, full and statutory entitlement to learning for all pupils, determining what should be taught and setting attainment targets for learning. It also determines how performance will be assessed and reported.

National Offender Management Service (NOMS): NOMS is an executive agency of the Ministry of Justice. It is responsible for the running of prison and probation services, rehabilitation services for prisoners leaving prison, ensuring support is available to stop people re-offending, contract managing private sector prisons and services such as the Prisoner Escort Service and electronic tagging, and contract managing 35 Probation Trusts.

NHS Continuing Care: NHS Continuing Care is support provided for children and young people under 18 who need a tailored package of care because of their disability, an accident or illness.

NHS Continuing Healthcare: NHS Continuing Healthcare is the name given to a package of care that is arranged and funded solely by the NHS for individuals aged 18 and over who are not in hospital but have complex ongoing healthcare needs. It can be provided in any setting, for example in the home or in a residential care home.

NHS England: NHS England is an independent body, at arm's length to the government and held to account through the NHS Mandate. Its main role is to improve health outcomes for people in England by providing national leadership for improving outcomes and driving up the quality of care; overseeing the operation of clinical commissioning groups; allocating resources to clinical commissioning groups, and commissioning primary care and specialist services.

NHS foundation trust: NHS foundation trusts are not-for-profit corporations that provide NHS hospital, mental health and ambulance services. NHS foundation trusts are not directed by the Government, but are accountable to their local communities through their members and governors,

to their commissioners through contracts and to Parliament through their annual report and accounts. Foundation trusts are registered with and inspected by the Care Quality Commission.

NHS Mandate: The NHS Mandate is issued by the government to NHS England. It sets out the government's ambition for the National Health Service and provides direction to NHS England. The mandate will be reviewed annually.

NHS trust: NHS trusts are public sector bodies that provide community health, hospital, mental health and ambulance services on behalf of the NHS in England and Wales. Each trust is headed by a board consisting of executive and non-executive directors, and is chaired by a non-executive director.

Non-maintained special school: Schools in England approved by the Secretary of State under section 342 of the Education Act 1996 as special schools which are not maintained by the state but charge fees on a non-profit-making basis. Most non-maintained special schools are run by major charities or charitable trusts.

Ofsted: Office for Standards in Education, a non-Ministerial government department established under the Education (Schools) Act 1992 to take responsibility for the inspection of all schools in England. Her Majesty's Inspectors (HMI) form its professional arm.

Parent: Under section 576 of the Education Act 1996, the term 'parent' includes any person who is not a parent of the child, but has parental responsibility (see below) or who cares for him or her.

Parent Carer Forum: A Parent Carer Forum is a group of parents and carers of disabled children who work with local authorities, education, health and other providers to make sure the services they plan and deliver meet the needs of disabled children and families.

Parent Partnership Services: Parent Partnership Services provide advice and information to children with SEN or disabilities, their parents, and young people with SEN or disabilities. They provide neutral and factual support on the special educational needs system to help the children, their parents and young people to play an active and informed role in their education and care. Although funded by local authorities, Parent Partnership Services are run either at arm's length from the local authority or by a voluntary organisation to ensure children, their parents and young people have confidence in them.

Parental responsibility: Parental responsibility is defined under Section 3 (1) of the Children Act 1989 as meaning all the duties, rights, powers, responsibilities and authority which parents have with respect to their children and their children's property. Under Section 2 of the Children Act 1989, parental responsibility falls upon:

- all mothers and fathers who were married to each other at the time of the child's birth (including those who have since separated or divorced)
- mothers who were not married to the father at the time of the child's birth, and
- fathers who were not married to the mother at the time of the child's birth, but who have obtained parental responsibility either by agreement with the child's mother or through a court order

Under Section 12 of the Children Act 1989, where a court makes a residence order in favour of any person who is not the parent or guardian of the child, that person has parental responsibility for the child while the residence order remains in force.

Under section 33 (3) of the Children Act 1989, while a care order is in force with respect to a child, the social services department designated by the order will have parental responsibility for that child, and will have the power (subject to certain provisions) to determine the extent to which a parent or guardian of the child may meet his or her parental responsibility for the child. The social services department cannot have parental responsibility for a child unless that child is the subject of a care order, except for very limited purposes where an emergency protection order is in force under Section 44 of the Children Act 1989.

Personal Budget: A Personal Budget is an amount of money identified by the local authority to deliver provision set out in an EHC plan where the parent or young person is involved in securing that provision. The funds can be held directly by the parent or young person, or may be held and managed on their behalf by the local authority, school, college or other organisation or individual and used to commission the support specified in the EHC plan.

Personal Education Plan: An element of a Care Plan maintained by a local authority in respect of a looked after child, which sets out the education needs of the child. If a looked after child has an EHC plan, the regular reviews of the EHC plan should, where possible, coincide with reviews of the Personal Education Plan.

Portage: Planned, home-based educational support for pre-school children with special educational needs. Local authorities usually provide Portage services. The Portage service is named after the town of Portage, Wisconsin, USA. There is an active and extensive network of Portage services in the UK, developed by the National Portage Association, which provides a Code of Practice and accredited training.

Pupil Referral Unit (PRU): Any school established and maintained by a local authority under section 19 (2) of the Education Act 1996 which is specially organised to provide education for pupils who would otherwise not receive suitable education because of illness, exclusion or any other reason.

Service Children's Education (SCE): SCE oversees the education of UK Service children abroad. It is funded by the Ministry of Defence and operates its own schools as well as providing advice to parents on UK and overseas schools.

Special Educational Needs (SEN): A child or young person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for him or her. A child of compulsory school age or a young person has a learning difficulty or disability if he or she has a significantly greater difficulty in learning than the majority of others of the same age, or has a disability which prevents or hinders him or her from making use of educational facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions.

Special Educational Needs Co-Ordinator (SENCo): A qualified teacher in a school or maintained nursery school who has responsibility for coordinating SEN provision. In a small school, the headteacher or deputy may take on this role. In larger schools there may be a team of SENCos. Other early years settings in group provision arrangements are expected to identify an individual to perform the role of SENCos and childminders are encouraged to do so, possibly sharing the role between them where they are registered with an agency.

Special educational provision: Special educational provision is provision that is different from or additional to that normally available to pupils or students of the same age, which is designed to help children and young people with SEN or disabilities to access the National Curriculum at school or to study at college.

Special school: A school which is specifically organised to make special educational provision for pupils with SEN. Special schools maintained by the local authority comprise community special schools and foundation special schools, and non-maintained (independent) special schools that are approved by the Secretary of State under Section 342 of the Education Act 1996.

Speech and language therapy: Speech and language therapy is a health care profession, the role and aim of which is to enable children, young people and adults with speech, language and communication difficulties (and associated difficulties with eating and swallowing) to reach their maximum communication potential and achieve independence in all aspects of life.

Virtual School Head (VSH): The Virtual School Head (VSH) is an officer of a local authority who leads a virtual school team that tracks the progress of children looked after by the authority as if they attended a single school. The Children and Families Act 2014 requires every local authority to appoint an officer who is an employee of that or another authority to discharge this duty

Young person: A person over compulsory school age (the end of the academic year in which they turn 16). From this point the right to make decisions about matters covered by the Children and Families Act 2014 applies to the young person directly, rather than to their parents.

Youth Justice Board (YJB): The Youth Justice Board for England and Wales is an executive non-departmental public body. Its board members are appointed by the Secretary of State for Justice. The YJB oversees the youth justice system in England and Wales, works to prevent offending and reoffending by children and young people under the age of 18 and ensures that custody for them is safe, secure and addresses the causes of their offending behaviour.

Youth Offending Team (YOT): Youth offending teams are part of local authorities and are separate from the police and the justice system. They work with local agencies including the police, probation officers, health, children's services, schools and the local community, to run local crime prevention programmes, help young people at the police station if they're arrested, help young people and their families at court, supervise young people serving a community sentence and stay in touch with a young person if they're sentenced to custody.

Appendix 3

Further Advice:

Advice, information and training (extracted from Annex 2 of the SEND Code 2014)

The following organisations provide advice, information and training on specific impairments:

- The Autism Education Trust for children and young people on the Autism Spectrum (www.autismeducationtrust.org.uk)
- The Communications Trust for speech, language and communication difficulties (www.thecommunicationtrust.org.uk)
- The Dyslexia SpLD Trust on dyslexia and literacy difficulties (www.thedyslexia-spldtrust.org.uk)
- The National Sensory Impairment Partnership for vision impairment, hearing impairment and multi-sensory impairment (www.natsip.org.uk)
- Each of these organisations is working with funding from the Department for Education to support the reforms to the SEN system.
- MindEd (www.minded.org.uk) is an e-learning portal aimed at supporting all adults working with children and young people. It provides simple, clear guidance on children and young people's mental health, wellbeing and development.
- The SEN Gateway (www.sendgateway.org.uk) enables access to a broad range of materials and support services across the range of SEN.
- Early Support provides a range of information materials to families and professionals (www.ncb.org.uk/earlysupport).
